CONDITIONS OF SALE

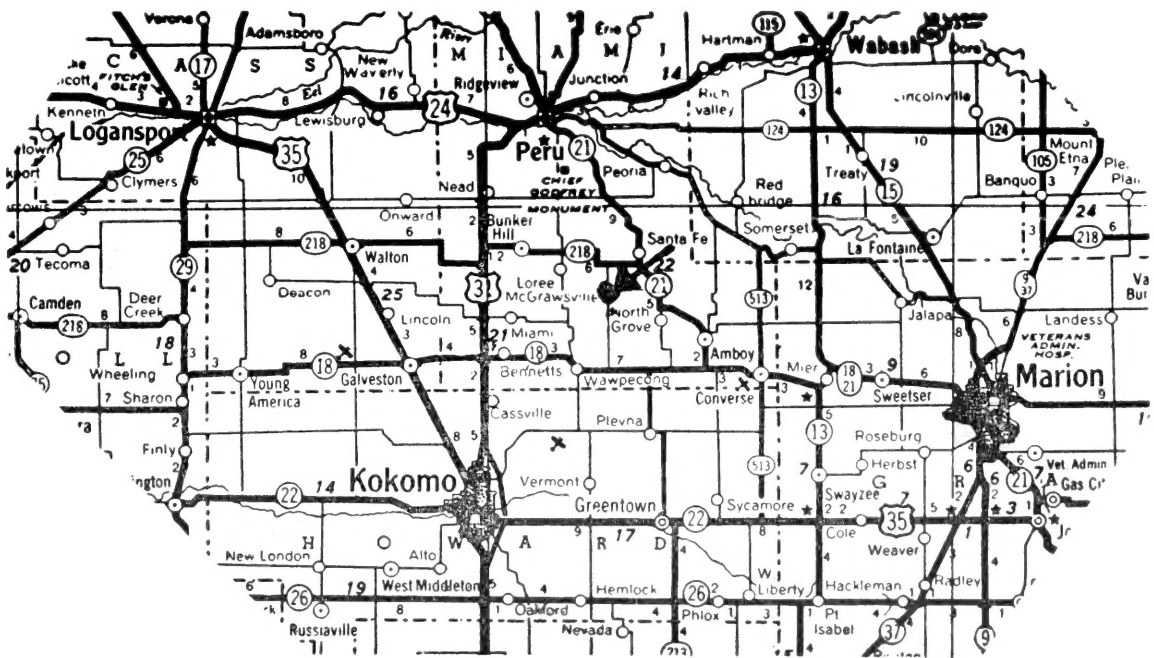

Please Read Before Ordering

We do not ship plants in freezing weather, when orders are received at this time of year, orders are filed for later shipping. Due to the increased cost of shipping we find it necessary to ask .75c

charge on all orders. All air and express orders ship at customers expense. If you live where you have special delivery and want this service, add 50c, making \$1.25 total.

Shipping instructions cancel the spring list instructions on shipping.

Visitors always welcome, see map for location, we are 1 mile south west of McGrawsville. Phone EX 5-7696.

GROUP 1

We are offering some of the better older varieties which we find quite in demand with our trade. You will find the descriptions in the 1957 spring list. If you do not have a copy of this list send a 2c stamp for it. Rooted cuttings of these varieties are 45c each; plants are 75c each.

FERNS

NEPHROLEPIS SMITHI "lace fern" plume like fronds very finely cut light green, \$1.00.
DAVALLIA MARISSII squirrels foot fern, Basket fern, brown rhizomes close over teh edge of basket. \$1.25.
NORWOOD Fluffy ruffles. Compact upright growth. \$1.00.
WHITMANI Ostrich plume fern. Dwarf with plummy fronds; feathery compact growth. \$1.00.
SPLENDIDA Long Fluffy, feathery fronds. \$1.00.

EPISCIA

Due to an oversight we did not quote prices on the Episcia in the Spring list. All the numbers are .85c except the white *Dianthafloria* which is \$1.00. We do not ship this plant after Sept. 15. It is a tropical plant.

The red *Oxalis* is withdrawn from shipping as the sales have been heavy, when another supply is available it will be offered again.

Our markers are plastic, \$1.25 per hundred when purchased at greenhouse; when sent by mail \$1.50 when ordered alone—with orders for plants, \$1.25.

Ground spagnum moss will not be available this fall.

We have dropped the Variety List on African Violets for this fall.

We have been asked to comment on the use of Sodium Selenate and VC 13. We Selenate every 3 months, due in September; VC 13 is used every 6 months (due at this time Aug.) For spray we use Malathion 50% on all plants and have never had it injure any plant. It is successful with all insects but mite; it will not control Cyclamin or broad mite. For Mealy bugs after spraying plant dilute spray one half and wet soil on plant.

For list of Begonia and many other house plants ask for the yearly list; send .02c stamp, if you do not have this list.
